# U.S. AIR FORCE TECHNICAL INFORMATION

This questionnaire has been prepared so that you can give the U.S. Air Force as much information as possible concerning the unidentified aerial phenomenon that you have observed. Please try to answer as many questions as you possibly can. The information that you give will be used for research purposes. Your name will not be used in connection with any statements, conclusions, or publications without your permission. We request this personal information so that if it is deemed necessary, we may contact you for further details.

1. When did you see the object?

5 Aug 1966  
Day Month Year

2. Time of day:

07 40  
Hour Minutes

(Circle One): A.M. or (P.M.)

3. Time Zone:

(Circle One): a. Eastern  
b. Central  
c. Mountain  
d. Pacific  
e. Other \_\_\_\_\_

(Circle One): a. Daylight Saving  
b. Standard

4. Where were you when you saw the object?

[Redacted]  
Nearest Postal Address

Kettering  
City or Town

Ohio  
State or County

5. How long was object in sight? (Total Duration)

\_\_\_\_\_  
Hours Minutes Seconds

a. Certain c. Not very sure  
b. Fairly certain d. Just a guess

5.1 How was time in sight determined? guess

5.2 Was object in sight continuously? Yes X No \_\_\_\_\_

6. What was the condition of the sky?

DAY  
a. Bright  
b. Cloudy

NIGHT  
a. Bright  
b. Cloudy partially

7. IF you saw the object during DAYLIGHT, where was the SUN located as you looked at the object?

(Circle One): a. In front of you d. To your left  
b. In back of you e. Overhead  
c. To your right f. Don't remember

# UFO form continued

Page 4

20. Do you think you can estimate the speed of the object?

(Circle One)

☒ Yes

☐ No

IF you answered YES, then what speed would you estimate? \_\_\_\_\_

21. Do you think you can estimate how far away from you the object was?

(Circle One)

☒ Yes

☐ No

IF you answered YES, then how far away would you say it was? 2-3 hundred feet.

22. Where were you located when you saw the object?

(Circle One):

a. Inside a building

b. In a car

☒ c. Outdoors

d. In an airplane (type)

e. At sea

f. Other \_\_\_\_\_

23. Were you (Circle One)

a. In the business section of a city?

b. In the residential section of a city?

c. In open countryside?

d. Near an airfield?

e. Flying over a city?

f. Flying over open country?

g. Other at an over pass

24. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

24.1 What direction were you moving? (Circle One)

a. North

c. East

e. South

g. West

b. Northeast

d. Southeast

f. Southwest

h. Northwest

24.2 How fast were you moving? \_\_\_\_\_ miles per hour.

24.3 Did you stop at any time while you were looking at the object?

(Circle One)

☐ Yes

☐ No

25. Did you observe the object through any of the following?

a. Eyeglasses

Yes

No

e. Binoculars

Yes

No

b. Sun glasses

Yes

No

f. Telescope

Yes

No

c. Windshield

Yes

No

g. Theodolite

Yes

No

d. Window glass

Yes

No

h. Other did not look any at it.

26. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

I've seen more than one, the size of different sounds. Some I saw were real close. A.D. different ones would give as sound that hurt my ears. I can't give an object that would compare.

545

## Official U.S. Air Force

Page 3

14. Did the object disappear while you were watching it? If so, how?

*No but listen  
I know of a man, I want  
give name now. He has no blood,  
must talk.*

15. Did the object move behind something at any time, particularly a cloud?

(Circle One):

Yes

☒ No

Don't know.

If you answered YES, then tell what

it moved behind: \_\_\_\_\_

16. Did the object move in front of something at any time, particularly a cloud?

(Circle One):

Yes

☒ No

Don't know.

If you answered YES, then tell what

in front of: \_\_\_\_\_

17. Tell in a few words the following things about the object:

a. Sound *Heard, a weird sound.*b. Color *different at times*

18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head?

*?*  
*0.*

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails. Place an arrow beside the drawing to show the direction the object was moving.

*Sir, I can't  
draw it.*

# FORCE UFO FORM

*Important on back sheet, Page 2*

8. IF you saw the object at NIGHT, what did you notice concerning the STARS and MOON?

8.1 STARS (Circle One):

- ☒ a. None
- b. A few
- c. Many
- d. Don't remember

8.2 MOON (Circle One):

- a. Bright moonlight
- b. Dull moonlight
- c. No moonlight—pitch dark
- d. Don't remember

9. What were the weather conditions at the time you saw the object?

CLOUDS (Circle One):

- ☒ a. Clear sky
- b. Hazy
- c. Scattered clouds
- d. Thick or heavy clouds

WEATHER (Circle One):

- a. Dry
- b. Fog, mist, or light rain
- c. Moderate or heavy rain
- d. Snow
- e. Don't remember

10. The object appeared: (Circle One):

- ☒ a. Solid
- b. Transparent
- c. Vapor
- d. As a light
- e. Don't remember

*with vapor trail and other things*

11. If it appeared as a light, was it brighter than the brightest stars? (Circle One):

- a. Brighter
- b. Dimmer
- c. About the same
- d. Don't know

11.1 Compare brightness to some common object:

12. The edges of the object were:

- (Circle One):
- a. Fuzzy or blurred
  - b. Like a bright star
  - c. Sharply outlined
  - d. Don't remember

*e. Other It was a great size. It left a vapor trail as it moved. After like a cliff column vapor.*

*after it blew a cloud of dust out and was gone in a matter of sec. It was in a different direction.*

13. Did the object:

- a. Appear to stand still at any time?
- b. Suddenly speed up and rush away at any time?
- c. Break up into parts or explode?
- d. Give off smoke?
- e. Change brightness? *in a way.*
- f. Change shape? *in a way.*
- g. Flash or flicker? *in a way.*
- h. Disappear and reappear?

- |                                      |                                     |            |

## U.S. AIR FORCE TECHNICAL INFORMATION

This questionnaire has been prepared so that you can give the U.S. Air Force as much information as possible concerning the unidentified aerial phenomenon that you have observed. Please try to answer as many questions as you possibly can. The information that you give will be used for research purposes. Your name will not be used in connection with any statements, conclusions, or publications without your permission. We request this personal information so that if it is deemed necessary, we may contact you for further details.

1. When did you see the object?

25 th 8 th 1966  
Day Month Year

2. Time of day: 6:00  
Hours Minutes

(Circle One): A.M. or P.M.

3. Time Zone:

(Circle One): a. Eastern  
b. Central  
c. Mountain  
d. Pacific  
e. Other \_\_\_\_\_

(Circle One): a. Daylight Saving  
b. Standard

4. Where were you when you saw the object?

over Be 32 Nashua N. H.  
Nearest Postal Address City or Town State or County

5. How long was object in sight? (Total Duration)

2 1 1/2  
Hours Minutes Seconds

a. Certain  
b. Fairly certain

c. Not very sure  
d. Just a guess

5.1 How was time in sight determined?

after my 16<sup>th</sup> Birthday.

5.2 Was object in sight continuously?

Yes ✓ No \_\_\_\_\_

6. What was the condition of the sky?

DAY  
a. Bright  
b. Cloudy

NIGHT  
a. Bright - clear  
b. Cloudy

It was between day & night hrs.

7. IF you saw the object during DAYLIGHT, where was the SUN located as you looked at the object?

(Circle One): a. In front of you  
b. In back of you  
c. To your right

d. To your left  
e. Overhead  
f. Don't remember

# Official U.S. Air Force

34. Date you completed this questionnaire:

Tuesday 7 1962  
Day Month Year

35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

There is a man he has no blood. High sounds hurt his ears.

He has no tastes. He picks his food for the energy and protein. He can't feel pain of any kind. He arrived here some time last summer on a mountain side.

Then when he was walking down he met with some friends. He says he is about 20 or 30 years of age.

His skin is a lot different in color.

He was asked about death. His answer was "you mean?"

## UFO form continued

Page 8

have I ever experienced it?"

Then he said I have seen it since I have been here but I don't like it.

He never sleeps at any time.

No one can insult him, at any time. He doesn't like hate of any kind.

He hastates when he talks.

He like water the best. At night all he does is look at the stars, and feels a long way from home. When he walks through the woods he looks at the sky at times. He went back to the mountain, He got to the top, looked down and sighted a tennisball down by the trees. I know his name.

I know about where he is staying. There is more information but not enough room.

## Official U.S. Air Force

Page 3

14. Did the object disappear while you were watching it? If so, how?

*flew away with tremendous speed*

15. Did the object move behind something at any time, particularly a cloud?

(Circle One):

Yes

☒ No

Don't know.

If you answered YES, then tell what

it moved behind: \_\_\_\_\_

16. Did the object move in front of something at any time, particularly a cloud?

(Circle One):

Yes

☒ No

Don't know.

If you answered YES, then tell what

in front of: \_\_\_\_\_

17. Tell in a few words the following things about the object:

a. Sound

*None*

b. Color

*White*

18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head?

*All of it*

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails. Place an arrow beside the drawing to show the direction the object was moving.

*gave of white light*

20. Do you think you can estimate the speed of the object?

(Circle One)

Yes

☒ No

IF you answered YES, then what speed would you estimate? \_\_\_\_\_

21. Do you think you can estimate how far away from you the object was?

(Circle One)

☒ Yes

No

IF you answered YES, then how far away would you say it was? 1/4 mile away

22. Where were you located when you saw the object?

(Circle One):

a. Inside a building

b. In a car

☒ c. Outdoors

d. In an airplane (type)

e. At sea

f. Other \_\_\_\_\_

23. Were you (Circle One)

a. In the business section of a city?

b. In the residential section of a city?

☒ c. In open countryside?

d. Near an airfield?

e. Flying over a city?

f. Flying over open country?

g. Other \_\_\_\_\_

24. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

24.1 What direction were you moving? (Circle One)

a. North

c. East

e. South

g. West

b. Northeast

d. Southeast

f. Southwest

h. Northwest

24.2 How fast were you moving? \_\_\_\_\_ miles per hour.

24.3 Did you stop at any time while you were looking at the object?

(Circle One)

Yes

No

25. Did you observe the object through any of the following?

a. Eyeglasses

Yes

☒ No

b. Sun glasses

Yes

☒ No

c. Windshield

Yes

☒ No

d. Window glass

Yes

☒ No

e. Binoculars

Yes

☒ No

f. Telescope

Yes

☒ No

g. Theodolite

Yes

☒ No

h. Other

Eyes it was clear enough

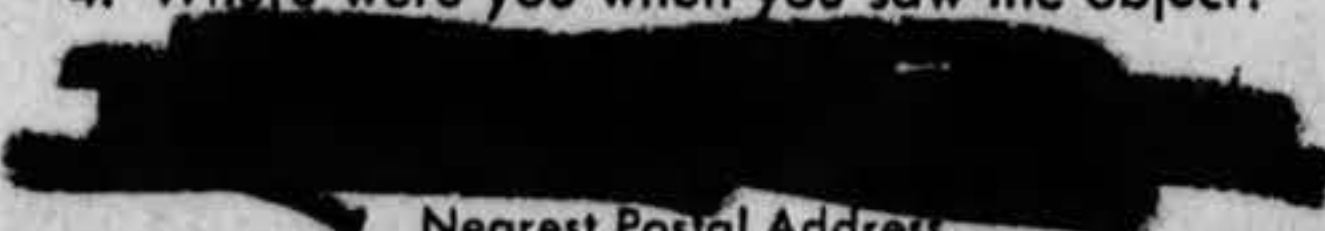

26. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

Well it was very bright. If the sun was put up there at night that's how it ~~was~~ would be.

34. Date you completed this questionnaire:

11 2 67  
Day Month Year

35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

It was as big as the sun. But it  
wasn't <sup>the sun</sup> I assure you that.

It was flying over a cement  
mill stoped over the stock and  
waited there in mid air for about  
10 min. then sped off.

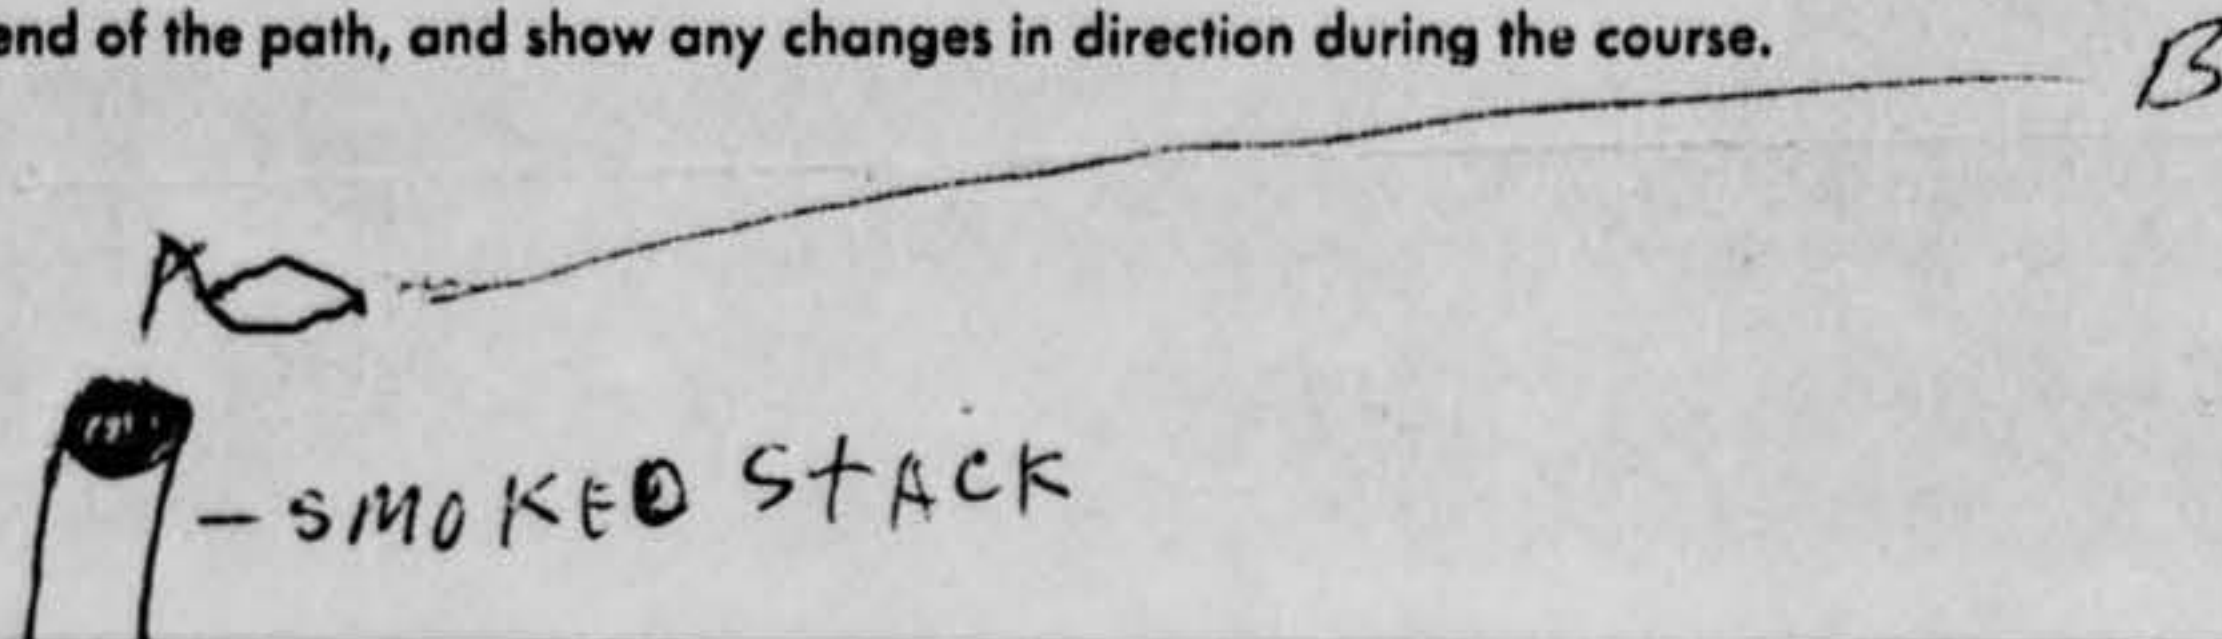

# Official U.S. Air Force

Page 5

27. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you *first* saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you *last* saw it. Place an "A" on the compass when you *first* saw it. Place a "B" on the compass when you *last* saw the object.

28. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

29. IF there was MORE THAN ONE object, then how many were there? \_\_\_\_\_  
Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

# UFO form continued

UFO 0 STARS

Page 6

It flew around  
slight where it  
dove at and did not  
move  
- then one  
came from  
that one  
and  
blow  
away

30. Have you ever seen this, or a similar object before. If so give date or dates and location.

yes, two of them the same summer.  
There was a bright thing moving around  
in the sky at first I thought it was a satellite. But  
it moved like this.

31. Was anyone else with you at the time you saw the object? (Circle One) ☒ Yes ☐ No

31.1 IF you answered YES, did they see the object too? (Circle One) ☒ Yes ☐ No

31.2 Please list their names and addresses:

The one that I saw my mom was with  
me.

The one that I saw two my cousin was with  
me.

32. Please give the following information about yourself:

NAME [redacted] Last Name [redacted] First Name [redacted] Middle Name [redacted]

ADDRESS [redacted] Street Bethlehem City PA Zone  State

TELEPHONE NUMBER [redacted] AGE 16 SEX male

Indicate any additional information about yourself, including any special experience, which might be pertinent.

Ever since then I got books about  
it - I wouldn't mind being a guy who  
does reports on it.

33. When and to whom did you report that you had seen the object?

Day Month Year

No one cause they might  
think I'm nuts. at the time,  
about 2 mos. later I told  
a couple kids.

UFO Observation, 28 Aug 1966

  
Newark, New Jersey 07104

1. This replies to your letter of 19 April 1967 regarding your observation of an unidentified flying object. If you had reported your 28 August 1966 sighting to the nearest Air Force installation, a meaningful scientific investigation would have been possible. Each Air Force installation has its own UFO investigator whose responsibility is to gather all the pertinent information for analysis. Since, at this late date, an investigation cannot be accomplished, your information will be added to our data base.

2. Thank you for reporting your observation to the Air Force.

Dear Sirs,

On August 28, 1966

I was walking on the boardwalk with some friends. It was 8:25 P.M. at the time. My friends went home but I stayed at the boardwalk. At 8:30 P.M. I noticed what I thought was an odd star. I went to a friend's house who studied stars. I found looking at the sky with a telescope. I asked him what he was doing he replied looking at a V.F.O. I asked if I could take a look he said yes it was the same thing I had seen on the boardwalk. Here is my description:

- (1) shape: oval
- (2) yellow orange was the color
- (3) size: the size of a top only in oval form
- (4) number: one
- (5) discernible features: Blinking (over)

(6) sound: none

Course of U.F.O.

(1) northwest

(2) flight path: up and down and end over end.

(3) Length of time in view: 1 hour

At 9:00 AM it was over the ocean and headed downward it seemed to land in the ocean but then it came back up at 9:15 P.M. it had moved over the lake upon 50 feet to 25 feet up then it went up at least 500 feet at 9:30 P.M. The next day we read about a M.F.O. in all the shore area. We saw it in the same course for 3 straight nights and never saw it again.

Yours in Christ

P.S. send a answer with pictures to compare with. Thank You sincerely,

U N C L A S S I F I E D      R O U T I N E

14. Did the object disappear while you were watching it? If so, how?

*Just disappeared*

15. Did the object move behind something at any time, particularly a cloud?

(Circle One):

Yes

No

Don't Know.

IF you answered YES, then tell what

it moved behind: \_\_\_\_\_

16. Did the object move in front of something at any time, particularly a cloud?

(Circle One):

Yes

No

Don't Know.

IF you answered YES, then tell what

in front of: \_\_\_\_\_

17. Tell in a few words the following things about the object:

a. Sound

*None*

b. Color

*White light*

18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head?

*Looked like a B-58 at 20,000 ft.*

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails.

Place an arrow beside the drawing to show the direction the object was moving.

*Round with something protruding from it*

Aug 21, 1966

Dear Sirs,

While doing a science report, I  
came across Project Blue Book's address.

My encounter is as follows.

Date - August 21, 1966

Time - around 9:50 P.M.

Place - Burlington, N.J. at my home

Conditions - 1.) observation was made with the  
naked eye - no optical aid

2.) weather - very clear, no clouds  
or factory smoke in sight.

3.) temperature - 80° or so

4.) direction - south westerly

5.) Viewing conditions - perfect

account - (taken from my astronomy notebook)

"A very bright all white light appeared  
in the S.W. sky behind our neighbors house.  
I guess around there since I was in the  
front yard and their house blocked part  
of the view. I disappeared behind the Parking  
House" (now - J. Chein warehouse) "a few seconds  
later in a rough N.W. way. Was brighter than  
a street light - just <sup>like</sup> the light that the moon  
reflects (brightness)" There was no noise or

MOVEMENT OF BALLOON

WATCH SUPERVISORS

CHIEF, ARTC CENTER, MEMPHIS, TENNESSEE

THE FOLLOWING INFORMATION CONCERNS MOVEMENT OF UN-CONTROLLED BALLOON.

- 30-0100Z MKC CENTER ADVISED BALLOON REPORTED TO BE 10 MILES NW OF SEDALIA, MISSOURI, MOVING ESE AT 5 TO 10 MILES PER HOUR.
- 30-1100Z MKC CENTER ADVISED BALLOON REPORTED TO BE JUST EAST OF VIK ALT UNKNOWN (REPORTED TO BE ABOVE 59,000 FEET).
- 30-1651Z MKC CENTER ADVISED BALLOON OVER SALEM, MISSOURI MOVING EASTWARD.
- 30-1725Z MKC CENTER ADVISED BALLOON 30 MILES WEST OF FAM (ALT EST AT 55,000 FEET).

AUGUST 31, 1966

- 31-0022Z BALLOON REPORTED TO BE 1 MILE WEST OF PIERMONT, MISSOURI MOVING SLOWLY SE ALT EST 11,000 TO 15,000 FEET.
- 31-0055Z BALLOON REPORTED TO BE 55 MILES SW OF FAM-10 MILES EAST OF J-101 ALT EST AT 50,000 FEET PLUS.
- 31-1145Z BALLOON REPORTED TO BE BETWEEN BYH AND ARG EST ALT ABOVE 50,000 FEET.
- 31-1245Z U-2 TYPE AIRCRAFT REPORTED ACTUAL ALT OF BALLOON TO BE 56,000 FEET.
- 31-1428Z BYH TOWER REPORTED BALLOON BEARING 225 DEGREES FROM BYH MOVING SOUTH SLOWLY (ALT EST AT ABOUT 20,000 FEET) VISUAL SIGHTING.
- 31-1435 P-10634 T-39 SOUTH BOUND ON J-35 AT FL 330 OVER RHY REPORTS BALLOON AT HIS TWO O'CLOCK POSITION EST ALT TO BE ABOVE 40,000 FEET.
- 31-1533Z BYH TOWER ADVISED BALLOON BEARING 231 DEGREES FROM BYH APPEARS TO BE MOVING WNW.
- 31-1549Z U-2 TYPE AIRCRAFT CIRCLING BALLOON. POSITION 40 MILES WSW OF BYH AT 59,000 FEET. APPEARS TO BE MOVING NW FROM PREVIOUS REPORTED POSITIONS. U-2 PILOT SAYS CABLE IS ABOUT 800 FEET LONG AND LOOKS TO BE MADE OF NYLON WITH RED KNOTS TIED IN IT ABOUT EVERY 20 FEET.
- 31-1830Z BALLOON ALMOST DIRECTLY OVER BYH APPEARS TO BE MOVING EAST, SIGHT LOST BY BYH TOWER DUE TO CLOUD COVERAGE, AREA OFFICE AND CCS ADVISED.
- 31-2115Z AAL FLIGHT INBOUND TO ME ON V-11 REPORTS BALLOON TO BE AT HIS TWO O'CLOCK POSITION. THIS AGREES WITH RADAR TARGET ON MEM RADAR 300/15.

31-2140Z BALLOON REPORTED TO BE OVER WINNT. ARK.  
 31-2203Z M7K102 F-8 ADVISED THE BALLOON IS AT THE MEM 300/50 MILE POSITION BETWEEN 50,000 AND 55,000 FEET.  
 31-2308Z MEMPHIS 307/60 ALT EST 50,000 FEET PLUS.  
 31-2347Z MEMPHIS 315/53 ALT EST 50,000 FEET PLUS. LOST IDENTITY SHORTLY THEREAFTER.  
 01-0240Z JERSEY GCI SITE PICKED UP TARGET ON HEIGHT FINDER AT LAT VOR 066.40-65  
 01 ALT 49,000 FEET. NOT VISIBLE ON RADAR.

SEPTEMBER 1, 1966

01-1135Z APPROX 40 MILES WSW MEM EST ALT 40,000 FEET.  
 01-1140Z BEE WOOD LITTON INDUSTRIES ADVISED OF POSITION OF BALLOON. HE ADVISED THE BALLOON WAS RELEASED FROM MINNEAPOLIS 8-24-66 AT 0730 CDT. HE MAY BE REACHED AT ONE OF THE FOLLOWING NUMBERS. BUSINESS 612-331-1282 HOME 612-SUNSET 4-1015  
 01-1440Z BALLOON REPORTED BY A LEAR JET AS 15-18 WEST OF GRW AT 50,000 TO 51,000 FEET.  
 01-1458Z REPORTED BY GRW F33 SW OF GRW.  
 01-1515Z AIRCRAFT REPORTED BALLOON NW OF GRW.  
 01-1546Z REPORTED BY GRW F33 OVER SLAUGHTER, MISS. (GRW 335/13)  
 01-1645Z POSITION AND MR. WOODS CONVERSATION REPORTED TO SW CCS-AREA OFFICE- AND SO-CCS.  
 01-1629Z DC-9 AT FL 240 REPORTED POSITION OF BALLOON 14 NW OF GRW.  
 01-1626Z PILOT OF LOW ALT AIRCRAFT REPORTED BALLOON OVER CLEVELAND, MISS. MOVING AT 110 MILES PER HOUR.  
 01-1703Z SO-472 REPORTED BALLOON TO BE 22 N OF GRW AT 7000 TO 8,000 FEET.  
 01-1719Z AIRCRAFT COMPUTED POSITION 34.07N 90.57W ALT 52,500 FEET.  
 01-1725Z NORAD COMMAND DIRECTOR (CAPT. SEEFE) CCB ADVISED THAT ACCORDING TO MR. FLINCHER MR. OR GEN MCKEE HAD DECLARED THE BALLOON TO BE A HAZARD TO NAVIGATION HE REQUESTED TO BE ADVISED VIA AUTOVON (576-2016) OF ANY ESTABLISHED MOVEMENT DIRECTION AND POSITIVE ALTITUDE. (INFO GIVEN TO MR. LEWIS 1755)  
 01-1800Z MR. KALMEACK AAL DISPATCHER IN ATL CALLED TO REPORT THAT 2 DELTA FLIGHTS D-817 FL 350 AND D-895 FL 280 REPORTED WHEN 27 EAST OF GRW AT 1743 THEY REPORTED THE BALLOON 10 NW OF GRW APPARENTLY DESCENDING. THEY FELT THE BALLOON WAS CONSIDERABLY LOWER THAN WE HAD BEEN LED TO BELIEVE. THEY WERE ABOUT READY TO ABANDON THE USE OF J-35 ROUTE. GIVEN TO AREA MR. DIXON.

01-1950Z P-33 REPORTED BALLOON AT GRW 300/1 52,000 FEET.

01-2207Z ADMI AE 397 LIT VORTAC 117/48

01-2225Z GRW FSS RECEIVED A REPORT THAT THE BALLOON WAS DOWN AT MOREHEAD, MISS.

01-2220Z B-58 REPORTS BALLOON AT MEM 230/114 GRW 278/76

01-2213Z B-58 REPORTS BALLOON ALT AT 48,000 FEET.

01-2258 MEM NORAD REPORTED ALT AT 63,000 FEET 10 SE OF MONTICELLO, ARK.

01-2331Z 32ND NORAD REPORTS 32ND NORAD

SEPTEMBER 2, 1966

02-0011Z 2 AIRCRAFT REPORTED THE BALLOON TO BE JUST NORTH OF (15MI) OF CROSSETT, ARK.

27. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you *first* saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you *last* saw it. Place an "A" on the compass when you *first* saw it. Place a "B" on the compass where you *last* saw the object.

28. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

A → B

29. IF there was MORE THAN ONE object, then how many were there? \_\_\_\_\_  
Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

N/A

30. Have you ever seen this, or a similar object before. If so give date or dates and location.

?

31. Was anyone else with you at the time you saw the object? (Circle One)

(Yes) No

31.1 IF you answered YES, did they see the object too? (Circle One)

(Yes) No

31.2 Please list their names and addresses:

No names given.  
His children and neighbors

32. Please give the following information about yourself:

NAME [REDACTED] [REDACTED] [REDACTED] E.  
Last Name First Name Middle Name  
ADDRESS [REDACTED] [REDACTED] [REDACTED] Ohio  
Street City Zone State  
TELEPHONE NUMBER \_\_\_\_\_ AGE ? SEX male

Indicate any additional information about yourself, including any special experience, which might be pertinent.

33. When and to whom did you report that you had seen the object?

\_\_\_\_\_  
Day Month Year

duty officer  
took call

34. Date you completed this questionnaire:

Day

Month

Year

35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

# U.S. AIR FORCE TECHNICAL INFORMATION

This questionnaire has been prepared so that you can give the U.S. Air Force as much information as possible concerning the unidentified aerial phenomenon that you have observed. Please try to answer as many questions as you possibly can. The information that you give will be used for research purposes. Your name will not be used in connection with any statements, conclusions, or publications without your permission. We request this personal information so that if it is deemed necessary, we may contact you for further details.

1. When did you see the object?

5 AUG 66  
Day Month Year

2. Time of day: 02 57  
Hour Minutes

(Circle One): A.M. or P.M.

3. Time Zone:

(Circle One): a. Eastern  
b. Central  
c. Mountain  
d. Pacific  
e. Other \_\_\_\_\_

(Circle One): a. Daylight Saving  
b. Standard

4. Where were you when you saw the object?

\_\_\_\_\_  
Nearest Postal Address City or Town State or County

5. How long was object in sight? (Total Duration)

\_\_\_\_\_  
Hours Minutes Seconds

a. Certain  
b. Fairly certain

c. Not very sure  
d. Just a guess

5.1 How was time in sight determined? \_\_\_\_\_

5.2 Was object in sight continuously? Yes \_\_\_\_\_ No \_\_\_\_\_

6. What was the condition of the sky?

DAY  
a. Bright  
b. Cloudy

NIGHT  
a. Bright  
b. Cloudy

7. IF you saw the object during DAYLIGHT, where was the SUN located as you looked at the object?

(Circle One): a. In front of you  
b. In back of you  
c. To your right

d. To your left  
e. Overhead  
f. Don't remember

8. IF you saw the object at NIGHT, what did you notice concerning the STARS and MOON?

8.1 STARS (Circle One):

- a. None
- b. A few
- ☒ c. Many
- d. Don't remember

8.2 MOON (Circle One):

- ☒ a. Bright moonlight
- b. Dull moonlight
- c. No moonlight – pitch dark
- d. Don't remember

9. What were the weather conditions at the time you saw the object?

CLOUDS (Circle One):

- a. Clear sky
- b. Hazy
- c. Scattered clouds
- d. Thick or heavy clouds

WEATHER (Circle One):

- a. Dry
- b. Fog, mist, or light rain
- c. Moderate or heavy rain
- d. Snow
- e. Don't remember

10. The object appeared: (Circle One):

- a. Solid
- b. Transparent
- c. Vapor
- ☒ d. As a light
- e. Don't remember

11. If it appeared as a light, was it brighter than the brightest stars? (Circle One):

- a. Brighter
- b. Dimmer
- c. About the same
- d. Don't know

11.1 Compare brightness to some common object:

\_\_\_\_\_

12. The edges of the object were:

- (Circle One):
- a. Fuzzy or blurred
  - b. Like a bright star
  - c. Sharply outlined
  - d. Don't remember

e. Other \_\_\_\_\_  
 \_\_\_\_\_  
 \_\_\_\_\_  
 \_\_\_\_\_

13. Did the object:

(Circle One for each question)

- |   |     |    |            |
|---|-----|----|------------|
| a. Appear to stand still at any time?           | Yes | No | Don't know |
| b. Suddenly speed up and rush away at any time? | Yes | No | Don't know |
| c. Break up into parts or explode?              | Yes | No | Don't know |
| d. Give off smoke?                              | Yes | No | Don't know |
| e. Change brightness?                           | Yes | No | Don't know |
| f. Change shape?                                | Yes | No | Don't know |
| g. Flash or flicker?                            | Yes | No | Don't know |
| h. Disappear and reappear?                      | Yes | No | Don't know |

14. Did the object disappear while you were watching it? If so, how?

15. Did the object move behind something at any time, particularly a cloud?

(Circle One):      Yes      No      Don't Know.      IF you answered YES, then tell what it moved behind: \_\_\_\_\_

16. Did the object move in front of something at any time, particularly a cloud?

(Circle One):      Yes      No      Don't Know.      IF you answered YES, then tell what in front of: \_\_\_\_\_

17. Tell in a few words the following things about the object:

a. Sound \_\_\_\_\_

b. Color \_\_\_\_\_

18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head?

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails. Place an arrow beside the drawing to show the direction the object was moving.

20. Do you think you can estimate the speed of the object?

(Circle One)      Yes      No

IF you answered YES, then what speed would you estimate? \_\_\_\_\_

21. Do you think you can estimate how far away from you the object was?

(Circle One)      Yes      No

IF you answered YES, then how far away would you say it was? \_\_\_\_\_

22. Where were you located when you saw the object?

(Circle One):

- a. Inside a building
- b. In a car
- c. Outdoors
- d. In an airplane (type)
- e. At sea
- f. Other \_\_\_\_\_

23. Were you (Circle One)

- a. In the business section of a city?
- b. In the residential section of a city?
- c. In open countryside?
- d. Near an airfield?
- e. Flying over a city?
- f. Flying over open country?
- g. Other \_\_\_\_\_

24. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

24.1 What direction were you moving? (Circle One)

- |              |              |              |              |
|--------------|--------------|--------------|--------------|
| a. North     | c. East      | e. South     | g. West      |
| b. Northeast | d. Southeast | f. Southwest | h. Northwest |

24.2 How fast were you moving? \_\_\_\_\_ miles per hour.

24.3 Did you stop at any time while you were looking at the object?

(Circle One)      Yes      No

25. Did you observe the object through any of the following?

- |                 |     |    |                |     |    |
|-----------------|-----|----|----------------|-----|----|
| a. Eyeglasses   | Yes | No | e. Binoculars  | Yes | No |
| b. Sun glasses  | Yes | No | f. Telescope   | Yes | No |
| c. Windshield   | Yes | No | g. Theodolite  | Yes | No |
| d. Window glass | Yes | No | h. Other _____ |     |    |

26. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

27. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you *first* saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you *last* saw it. Place an "A" on the compass when you *first* saw it. Place a "B" on the compass where you *last* saw the object.

28. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

29. IF there was MORE THAN ONE object, then how many were there? \_\_\_\_\_

Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

30. Have you ever seen this, or a similar object before. If so give date or dates and location.

31. Was anyone else with you at the time you saw the object? (Circle One) Yes No

31.1 IF you answered YES, did they see the object too? (Circle One) Yes No

31.2 Please list their names and addresses:

32. Please give the following information about yourself:

NAME [REDACTED] [REDACTED] [REDACTED]  
Last Name First Name Middle Name

ADDRESS [REDACTED] KETTERLINE 01110  
Street City Zone State

TELEPHONE NUMBER \_\_\_\_\_ AGE 18 SEX MALE

Indicate any additional information about yourself, including any special experience, which might be pertinent.

APR 11 1967

Dear [REDACTED]

Reference your unusual photographs which were forwarded to our office for detailed photographic study.

Photographic analysis revealed the following: Slide #1 is a normally exposed good quality transparency with one water spot or chip in emulsion probably caused in processing. Slide #7 may also be a good transparency, highly magnified. It may also be some object or reflection of some shape other than shown, but made to appear as two lobes with high lights and shadows by the extent of or lack of focus. The higher the magnification, the more focus can alter the image's size and shape. The image on slide #7 could be of an object, a light source, or a reflection of a light source. Any identification from the submitted photographs would be only speculation.

Your interest in Project Blue Book is appreciated. I am returning your slides. Thank you for submitting them to the Air Force for evaluation.

Sincerely,

*DM*

# PHOTO ANALYSIS REPORT

NR 67-9

PAGE 1 OF 2 PAGES

DATE OF REPORT 14 February 1967

SUBJECT UNIDENTIFIED OBJECTS, CLINTON, MISSOURI

LOCATION CLINTON, MISSOURI

DATE Aug, Sept, Oct 66

## PHOTOGRAPHY

AF \_\_\_\_\_ IR \_\_\_\_\_ QUALITY \_\_\_\_\_

P NRS 6 - 35 mm Color Transparencies, 6 B&W 8 x 10 Prints, 6 - 35 mm B&W Negatives

1. PURPOSE: The purpose of this report is to answer Work Order Number 67-12 submitted by Major H. Quintanilla, Jr. for an analysis and determination of the objects' identities, if possible.

### 2. ANALYSIS:

a. Slides #1 & #7, from [REDACTED] appear to be as follows: #1 is a normally exposed good quality transparency with one water spot or chip in emulsion probably caused in processing. #7 may also be a good transparency, highly magnified. It may also be some object or reflection of some shape other than shown, but made to appear as two lobes with high lights and shadows by the extent of or lack of focus. The higher the magnification, the more focus can alter the image size and shape. The image on slide #7 could be of an object, a light source, or a reflection of a light source. Any identification from the available information would be only speculation.

b. Slides #10, and #11, from [REDACTED] were taken in the hours of near darkness and slides #12 and #13 were taken in daylight. All four of these slides appear to have been taken through the same window and nearly along the same azimuth. Slide #10 shows what appears to be a light source, airborne or elevated above the horizon. Slide #11 shows the same light source, or a similar subsequent light source in the same approximate position, dependent upon the time lapse between frames, but of a longer duration. A slower shutter speed on frame #11, as compared to #10, would produce a lighter transparency, capture more of the movement of the object and make the object or image appear longer. These conditions have been met in frame #11 which is of lighter density and has a longer image. An aircraft landing light could produce such images.

c. Slides #12 and #13 show linear patterns such as of smoke, gas, vapor or exhaust trails. These patterns appear in approximately the area as the lights or reflections in slides #10 and #11. The linear patterns of the object in slides #12 and #13 are nearly parallel to the apparent movement of the light in slide #11. The similarity of implied motion in three of the four slides, #11, #12, and #13, suggests numerous objects traveling in the same area and same direction, such as traffic on an airport approach or airway.

JUN 13 1967

Dear Mr. [REDACTED]

Reference your recent correspondence regarding your observation and subsequent photograph of an unidentified flying object (UFO).

Examination of the submitted negative has negated double exposure and/or retouching. Close inspection of the negative revealed many smaller images in addition to the bright image which is visible on the prints. These smaller images appear to follow a course parallel to the path of the bright image indicating that the camera was moved rather than the images moving as the photograph was taken. Notation should be made of the fact that the images are located in the trailer section of the film and not in a normal frame position. Without specific details, there is no way to determine what produced the images.

The description of the visual observation is consistent with that of an aircraft sighting. Jet aircraft operating at altitudes above 20,000 to 25,000 feet can be easily observed; however, unless proper conditions prevail, they cannot be heard. Lack of sound is not a valid reason to exclude an aircraft. After detailed investigation, it appears an aircraft could have been responsible for the sighting although it was not photographed.

Thank you for reporting your observation to the Air Force.

Sincerely,

BARNETT B. YOUNG  
Lt Colonel, USAF  
Civil Branch  
Community Relations Division  
Office of Information

Gentleman of the Air Force:

I have photos of a UFO. You people will call it something else, do to the fact that you put down people who try to prove to the people of the United States that life does exist on other planets, if they are in our time and space or not.

My name is [REDACTED], I live in Minneapolis, Minn. I saw 1 UFO on a clear sky over Minneapolis. The object was going south in the eastern sky. It was not a airplane do to the fact that a airplane makes sound. I heard no sound, and as the picture shows-no running lights. I losted the film somewhere, and was, not able to find it, (I took picture in late August or early October). I did find it and had a negative made at the PAKO film company in Minneapolis. The object did not pass overhead. The object was in the sky at about  $\frac{1}{4}$  of the overhead sky to the ground. (see ill.)

Time: was about 7:00 & 7:30 pm. No airplane was around at that time.

Path was zig-zag. Shutter of camera was open at about 4 to 5 seconds, camera was also not moving and was on a base that did not move. Checking, I find out, shows that fireballs, comets, and madman matieal in the sky does not zig-zag.

Speed was about or over 1000 miles per hour.

Color of object was orangeish-white and looked more dised than round.

Sky was clear ( see stars in picture ). There than, there was no lighting. It was a chilly night, and there was no heat lighting. I left shutter open to "path" the object, and to get the tail of the path of the object.

The object as far as I can tell is unknown. I have never seen a object like it. A friend of mine, who made pictures out of the negative, said "I don't know what the object is"

Please send photo back to: [REDACTED]

Minneapolis, Minn. 55400

Proposed reply to letter from [REDACTED]

Dear [REDACTED]:

Reference your recent correspondence regarding your observation and subsequent photograph of an unidentified flying object.

Examination of the submitted negative has negated double exposure and/or retouching. Close inspection of the negative revealed many smaller images in addition to the bright image which is visible on the prints. These smaller images appear to follow a course parallel to the path of the bright image indicating that the camera was moved rather than the images moving as the photograph was taken. Notation should be made of the fact that the images are located in the trailer section of the film and not in a normal frame position. Without specific details, there is no way to determine what produced the images.

The description of the visual observation is consistent with that of an aircraft sighting. Gentleman of the Air Force:

I have photos of a UFO. You people will call it something else, do to the fact that you put down people who try to prove to the people of the United States that life does exist on other planets, if they are in our time and space or not.

My name is Kevin Dicks, I live in Minneapolis, Minn. I saw I UFO on a clear sky over Minneapolis. The object was going south in the eastern sky. It was not a airplane do to the fact that a airplane makes sound. I heard no sound, and as the picture shows-no running lights. I losted the film somewhere, and was, not able to find it, (I took picture in late August or early October). I did find it and had a negative made at the PAKO film company in Minneapolis. The object did not pass over head. The object was in the sky at about  $\frac{1}{4}$  of the overhead sky to the ground. (see ill.)

Time: was about 7:00 & 7:30 pm. No airplane was around at that time.

Path was zig-zag. Shutter of camera was open at about 4 to 5 seconds, camera was also not moving and was on a base that did not move. Checking, I find out, shows that fireballs, comets, and madman matieal in the sky does not zig-zag.

Speed was about or over 1000 miles per hour.

Coler of object was orangeish-white and looked more dised than round.

Sky was clear ( see stars in picture ). There than, there was no lighting. It was a chilly night, and there was no heat lighting. I left shutter open to "path" the object, and to get the tail of the path of the object.

The object as far as I can tell is unknown. I have never seen a object like it. A friend of mine, who made pictues out of the negative, said "I don't know what the object is"

Please send photo back to:

Minneapolis, Minn.

*Kevin Dicks*

14. Did the object disappear while you were watching it? If so, how?

*No*

15. Did the object move behind something at any time, particularly a cloud?

(Circle One):

Yes

No

Don't Know.

IF you answered YES, then tell what

it moved behind: \_\_\_\_\_

16. Did the object move in front of something at any time, particularly a cloud?

(Circle One):

Yes

No

Don't Know.

IF you answered YES, then tell what

in front of: \_\_\_\_\_

17. Tell in a few words the following things about the object:

a. Sound \_\_\_\_\_

b. Color \_\_\_\_\_

*bright gold*

18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head?

*MANY times bigger than  
match head*

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails. Place an arrow beside the drawing to show the direction the object was moving.

1. PURPOSE: This report is written in response to Work Order Number 67-43 submitted by Major Quintanilla, TDETR, requesting photo analysis of a negative and two prints to determine what the unidentified object may be.

2. ANALYSIS: The photography appears genuine insofar as content is concerned. Examination of the submitted negative has negated double exposure and/or retouching. Close inspection of the negative reveals many smaller images in addition to the bright image which is visible on the prints. These smaller images appear to follow a course parallel to the path of the bright image indicating that the camera was moved rather than the images moving as the photo was taken. Notation should be made of the fact that the images are located in the trailer section of the film and not in a normal frame position. No satisfactory explanation could be found as to what produced the images.

- 3.) Three is where I closed shutter.

Dear Gentleman,

Some time ago I  
send a picture to you  
of (as I think) a  
UFO. I was  
wondering what is  
taking you so  
much time to tell  
me what it is. I  
have six more  
pictures of that  
kind you have.

I am all ready  
to send them to:  
NICAP, your friend,  
Frank Edwards,  
APRO, and other  
such places. Please

answer as fast  
as possible, I would  
like it very much.

Thank-you for  
the time you have  
given me. If you  
have already send  
a answer to me about  
the pictures, please  
forgive this letter.  
Please send my  
negative and photos.

yours,

A black rectangular redaction mark covering the signature.

20. Do you think you can estimate the speed of the object?

(Circle One)

Yes

☒ No

*just fast*

IF you answered YES, then what speed would you estimate? \_\_\_\_\_

21. Do you think you can estimate how far away from you the object was?

(Circle One)

Yes

☒ No

IF you answered YES, then how far away would you say it was? \_\_\_\_\_

22. Where were you located when you saw the object?

(Circle One):

a. Inside a building

b. In a car

☒ c. Outdoors

d. In an airplane (type)

e. At sea

1. PURPOSE: This report is in reply to Work Order Number 67-4 (PPT 601021202) submitted by Major H. Quintanilla, TDET/UFO, requesting photo analysis of the photographic phenomena which appeared on photography taken by Mr. [REDACTED] Ford, Connecticut, while at Westhampton Beach, Long Island, New York, on 21 August 1966.

2. ANALYSIS: The photography provided indicates central refraction with an undetermined number of secondary refractions/or reflections of the iris diaphragm in and on the optical system. The circles within the hexagon shapes are defraction patterns. This is a perfect textbook example of a camera imaging its own lens diaphragm.

Proposed reply to letter from Mrs [REDACTED], 10 September 1966

Dear [REDACTED]:

Reference your letter of 10 September 1966 in which you stated that you had photographs taken from the surface of the ocean into a sunset.

A photographic analysis of your color transparencies revealed the following: The photography provided indicates central refraction with an undetermined number of secondary refractions or reflections of the iris diaphragm in and on the optical system. The circles within the hexagon shapes are defraction patterns. This is a perfect textbook example of a camera imaging its own lens diaphragm.

We wish to thank you for enabling the Air Force to review the photographs.

### U.S. AIR FORCE TECHNICAL INFORMATION

This questionnaire has been prepared so that you can give the U.S. Air Force as much information as possible concerning the unidentified aerial phenomenon that you have observed. Please try to answer as many questions as you possibly can. The information that you give will be used for research purposes. Your name will not be used in connection with any statements, conclusions, or publications without your permission. We request this personal information so that if it is deemed necessary, we may contact you for further details.

1. When did you see the object?

21 August 1966  
Day Month Year

2. Time of day: 6 45  
Hour Minutes  
(Approximate. Just before sundown)  
(Circle One): A.M. or P.M.

3. Time Zone:

(Circle One): a. Eastern  
b. Central  
c. Mountain  
d. Pacific  
e. Other \_\_\_\_\_

(Circle One): a. Daylight Saving  
b. Standard

4. Where were you when you saw the object?

Westhampton Beach Westhampton L.I., N.Y.  
Nearest Postal Address City or Town State or County

5. How long was object in sight? (Total Duration)

\_\_\_\_\_  
Hours Minutes Seconds

(See above. Never sighted. Merely photographed.)

a. Certain c. Not very sure  
b. Fairly certain d. Just a guess

5.1 How was time in sight determined? \_\_\_\_\_

5.2 Was object in sight continuously? Yes \_\_\_\_\_ No \_\_\_\_\_

6. What was the condition of the sky?

DAY  
a. Bright  
b. Cloudy

NIGHT  
a. Bright  
b. Cloudy Sunset.

7. IF you saw the object during DAYLIGHT, where was the SUN located as you looked at the object?

(Circle One): a. In front of you d. To your left  
b. In back of you e. Overhead  
c. To your right f. Don't remember

8. IF you saw the object at NIGHT, what did you notice concerning the STARS and MOON?

8.1 STARS (Circle One):

- a. None
- b. A few
- c. Many
- d. Don't remember

8.2 MOON (Circle One):

- a. Bright moonlight
- b. Dull moonlight
- c. No moonlight - pitch dark
- d. Don't remember

9. What were the weather conditions at the time you saw the object?

CLOUDS (Circle One):

- a. Clear sky
- b. Hazy
- c. Scattered clouds
- d. Thick or heavy clouds

WEATHER (Circle One):

- a. Dry
- b. Fog, mist, or light rain
- c. Moderate or heavy rain
- d. Snow
- e. Don't remember

10. The object appeared: (Circle One):

- a. Solid
- b. Transparent
- c. Vapor
- d. As a light
- e. Don't remember

See photo

11. If it appeared as a light, was it brighter than the brightest stars? (Circle One):

- a. Brighter
- b. Dimmer
- c. About the same
- d. Don't know

11.1 Compare brightness to some common object:

See photo

12. The edges of the object were:

- (Circle One):
- a. Fuzzy or blurred
  - b. Like a bright star
  - c. Sharply outlined
  - d. Don't remember

e. Other \_\_\_\_\_

See photo

13. Did the object:

(Circle One for each question)

- a. Appear to stand still at any time?
- b. Suddenly speed up and rush away at any time?
- c. Break up into parts or explode?
- d. Give off smoke?
- e. Change brightness?
- f. Change shape?
- g. Flash or flicker?
- h. Disappear and reappear?

| c. Windshield   | Yes | No | g. Theodolite          | Yes | No |
| d. Window glass | Yes | No | h. Other <u>Camera</u> |     |    |

26. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

See photo.

14. Did the object disappear while you were watching it? If so, how?

See photo on all below.

15. Did the object move behind something at any time, particularly a cloud?

(Circle One):      Yes      No      Don't Know.      IF you answered YES, then tell what it moved behind: \_\_\_\_\_

16. Did the object move in front of something at any time, particularly a cloud?

(Circle One):      Yes      No      Don't Know.      IF you answered YES, then tell what in front of: \_\_\_\_\_

17. Tell in a few words the following things about the object:

- a. Sound \_\_\_\_\_
- b. Color \_\_\_\_\_

18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head?

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails. Place an arrow beside the drawing to show the direction the object was moving.

34. Date you completed this questionnaire:

Nov. 6	Nov.	1966
Day	Month	Year

35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

As I have said, I ~~sa-saw~~ saw nothing. I was standing in shallow water with the camera submerged. My back was to the sea, (east) and I was facing the sun set (west). The sun was setting over the beach in that location, of course. Since I was unsure of exposure, I bracketed the shot on the camera - A Nikonos - from F 22 to F 2.5. Only the enclosed three shots were of interest. I used Ektachrome X film.

Lt. Colonel George Freeman's letter has reached me here in Palma de Majorca - and although I filled out the questionnaire on the above date I shall have to await my return to my home in Stamford sometime later this month to get the ~~trans~~ transparencies and send them. Although the letter requested the negatives - actually the transparencies are the originals and I'd have to have negatives made from them - which would serve little purpose.

DEPARTMENT OF THE AIR FORCE  
WASHINGTON, D. C. 20330

OFFICE OF THE SECRETARY

OCT 27 1966

Dear Mrs. [REDACTED]:

Please excuse the delay in replying to your letter regarding your photographs of unidentified flying objects. A heavy backlog of correspondence and reports has precluded a prompt response to your letter.

The Air Force would be interested in analyzing your photographs. However, we will need the original negatives and pertinent camera information (type of camera used, shutter speed, "F" stop, etc.). Upon completion of the analysis, the negatives and a copy of the report will be returned to you.

It is requested that the attached FTD Form 164 be completed as fully as possible and returned with the negatives.

Your interest in Air Force matters is appreciated.

Sincerely,

*David P. Stiles Maj. USAF*  
GEORGE P. FREEMAN, JR.  
Lt Colonel, USAF  
Chief, Civil Branch  
Community Relations Division  
Office of Information

Attachment  
FTD Form 164

[REDACTED]  
Stamford, Connecticut 06903

30. Have you ever seen this, or a similar object before. If so give date or dates and location.

No - altho' they look similar to me to refracted light shown in other photography, particularly of satellites.

31. Was anyone else with you at the time you saw the object? (Circle One) Yes No

31.1 IF you answered YES, did they see the object too? (Circle One) Yes No

31.2 Please list their names and addresses:

32. Please give the following information about yourself:

NAME                                                                 
Last Name First Name Middle Name

ADDRESS                                                                Conn. U.S.A.  
Street City Zone State

TELEPHONE NUMBER                      AGE 51 SEX F.

Indicate any additional information about yourself, including any special experience, which might be pertinent.

I have a great interest in photography - particularly underwater photography and the unusual effects that can be achieved by a camera underwater. (I do dive with an aqualung.)

33. When and to whom did you report that you had seen the object?

Aug. or Sept. 1966  
Day Month Year

Wrote to the Air Force. Was answered by Lt. Col George W. Freeman Jr.

27. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you *first* saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you *last* saw it. Place an "A" on the compass when you *first* saw it. Place a "B" on the compass where you *last* saw the object.

28. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

See Photo

29. IF there was MORE THAN ONE object, then how many were there? \_\_\_\_\_  
Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

See Photo

March 29, 1967

Gentlemen:

My name is [REDACTED] and I would like to submit the following UFO report.

On August 22, 1966, at approximately 7:30 p.m. EST my friend [REDACTED] and I were observing the moon with my 300x reflector. (We are both amateur astronomers). Taking a brief rest, we decided to take a stroll. As we glanced into the sky we noticed what appeared to be two ordinary airplane light. Further observations, however, revealed a weird flying object with two legs. At the time, the sun was setting so features on the craft were discernible. My friend noticed that the object had two legs. Each leg had a light on the bottom. One light, red in color, was slightly smaller than the green light. As the object approached zenith, I noticed the main rectangular part of the craft. At zenith the red and green lights disappeared and all that was visible was one, large, blinking yellow light that was apparently rising in altitude, as features were no longer clear. It curved and finally disappeared in the northeastern sky. It had originated in the west. Period of visibility was one minute, fifteen seconds.

Would you please give me your opinion of the sighting?

Yours truly,  
[REDACTED]

SAF-OICC/Mrs Cassel/bp/79079/8 May 67

MAY 8 1967

Dear Mr. [REDACTED]

Reference your recent letter reporting your August 22, 1966 observation of an alleged unidentified flying object. The late date of the report disallows a detailed scientific investigation.

We ask that reports follow observations as soon as possible after occurrence. This enables Project Blue Book's analysts to check the factors necessary to determine the cause of a sighting. If you had reported your observation shortly after the date of your sighting, a meaningful scientific investigation would have been possible. Your report will be filed for information purposes only.

Thank you for reporting your observation to the Air Force. I have inclosed the 1967 report on our project which I think you will find interesting.

Sincerely,

GEORGE P. FREEMAN, JR.

ATTN OF:

TDETR

SUBJECT:

UFO Sighting, 23 August 1966

SEP 28 1966

TO:

Hq USAF (SAFOICC)

1. Reference the attached letter from Peter Fulton Foss requesting information on two unidentified observations. His letter was forwarded to our office by the Operations Officer, U.S. Naval Air Station, Corpus Christi, Texas.

2. We are unable to specifically identify the aircraft which he observed on 23 August 1966. In the Texas area, there are many conventional and experimental aircraft in operation, making it extremely difficult to locate the exact culprit. General Dynamics, in particular, is engaged in aerospace functions, for they are the builders of the F-111 aircraft.

3. We feel that [redacted] observed the ECHO I satellite on 28 August which was heading on a southeasterly direction at 2127 CST. ECHO I, with a stellar magnitude of plus 1 is easily visible on a clear night.

OCT 21 1966

Dear Mr. [REDACTED]

Your letter to the International Airport at Corpus Christi, Texas, has been referred to this office for reply.

We are unable to specifically identify the aircraft which you observed on August 23, 1966. In the Texas area, there are many conventional and experimental aircraft in operation, making it extremely difficult to locate the exact culprit. For example, General Dynamics, builders of the F-111 aircraft, is engaged in aerospace functions.

We feel you observed the ECHO I satellite on August 28 which was heading on a southeasterly direction at 2127 CST. ECHO I, with a stellar magnitude of plus 1, is easily visible on a clear night.

Your interest is appreciated.

Sincerely,

GEORGE P. FREEMAN, JR.

1966

International Airport  
Flight Control Center  
Corpus Christi, Texas

Gentlemen;

Would you be so kind as to tell me what the following flight movements were, or forward this letter to someone who can.

- 1) On August twenty-three at 1:20 pm I saw an aircraft moving moving over Ingleside about 85° up from the Eastern horizon. It was following a curve from West to East to North, was leaving a contrail, but was moving at an incredibly high rate of speed. The only thing that set this particular craft off from any of a hundred other high-flying planes I have seen was its high rate of speed. I would estimate strictly from a layman's point of view that it was moving in excess of 1700 miles per hour.
- 2) On August twenty-eight around 9:30 pm, perhaps sometime after 10:00 pm I saw what looked to be a satellite moving Northwest to Southeast. I was only able to watch it for about 10 minutes before it disappeared into the light of the moon.

Thank you very much for your kind attentions.

Sincerely,  
WORLD WIDE TRAVEL of texas, inc.
